

Enhance your customer interactions.

As a valued Fellowes® AeraMax® Pro air purifier dealer or reseller, you know our products provide long-lasting clean air for your customers. Optimizing that investment in AeraMax Pro and ensuring consistency of clean air requires maintenance of the units' filters.

So, we've created a series of emails you can share with your customers explaining the benefits associated with regular replacement of the filters in their Fellowes AeraMax Pro air purifiers.

You can simply forward them to your customer base to spread the word!

The emails will explain why it's so important to regularly change the filters and will offer a call to action for your customers to purchase the filters directly from you. We hope this creates yet another way for you to build an even stronger relationship with your customers. Be on the lookout for the emails in the coming days. You can also save the emails in a folder in your preferred email app and send them to new AeraMax Pro customers.
