THE MOST PREPARED SPACES HAVE FELLOWES

Keep your guests safe and provide peace of mind.

In recent years, the hospitality industry has dramatically improved its awareness of air quality issues that have a direct impact on guest comfort and health. More customers today are sensitive to poor air quality in hotels. Often the first cause of concern is odors from cleaning agents, tobacco smoke or water damage, or renovation. In addition, a growing number of customers are looking for hotel accommodations that cater to their need for an allergy- or asthma-friendly environment.

That's why hotels and venues across the country are choosing Fellowes Air Purifiers to enhance the quality of air purification they can provide. Best yet, AeraMax Pro air purifiers notify you when it's time to change True HEPA and carbon filters, so your staff can devote their valuable time to caring for guests, not machines!

REMOVES OVER 99.99% OF COVID-19†

In a recent test, Fellowes AeraMax Pro AM3 & AM4 air purifiers demonstrated to eliminate COVID-19†, using a combination of smart and integrated technologies—only from Fellowes.

“The AeraMax Pro AM3 and 4 air purifiers were evaluated in extreme laboratory operating conditions, certainly much more critical and difficult than the real environmental situation. This situation was purposely designed since it is necessary to test the effectiveness of similar sanitizing devices in critical conditions to guarantee their effective performance. Despite the extreme conditions used, the Fellowes air purification technology was able to neutralize the airborne viral load.

Additionally, SARS-CoV-2 mutations do not affect dynamics of its spreading by aerosol particles. As the particulate would remain the same size **regardless of the variant**, this testing demonstrates AeraMax AM3 & AM4 effectively removes over 99.99% of aerosolized COVID-19 particles.

—Alberto Izzotti, MD, PhD

Full Professor of Hygiene, Preventative Medicine, and Public Health
Department of Experimental Medicine at University of Genoa,
School of Medicine, where the Fellowes test was conducted.

Fellowes continues to illustrate the effectiveness of the AeraMax Pro line of commercial air purifiers by utilizing independent testing and third-party standards to prove our performance. Fellowes is committed to expanded testing with fully accredited and independent labs.

†Fellowes AeraMax Pro AM3 & AM4 air purifiers demonstrated, through independent laboratory testing, to be effective in eliminating aerosolized concentration of SARS-CoV-2 by 99.9999% through a single air pass test of the purifier. In addition, AeraMax Pro air purifiers reached 99.99% airborne reduction of a surrogate Human Coronavirus 229E in a 20m3 test chamber within 1 hour of operation in a separate test.

Why Fellowes Air Purifiers?

It Starts with Great HEPA Filtration

Our AeraMax Pro AM3 and AM4 units with H13 True HEPA filters capture at least 99.95% of particles as small as 0.1 microns, including allergens, such as pollen, dust, pet dander, and smoke.

The four stage filtration process:

1. **Pre-Filter** captures large particles
2. **Active Carbon** filtration adsorbs odors and VOCs from the air
3. **H13 True HEPA filter** captures up to 99.95% of particles as small as 0.1 microns
4. **PlasmaTrue™ Bipolar Ionizer** improves the capture efficiency of the particulate filter

LOBBIES AND WAITING ROOMS

High-traffic environments—such as lobbies and waiting rooms—can be an area of risk for viral and germ transmission. Fellowes air purifiers with **PureView™ Technology makes the invisible visible** with real-time status updates as the air is cleaned. This not only provides improved brand perception, it gives employees and guests maximum peace of mind that the air they breathe is clean.

Your brand's perception is important for repeat guest stays. 64% of Americans will think twice about patronizing an establishment after an unpleasant restroom experience*. AeraMax Pro utilizes True HEPA filtration to remove airborne contaminants.

RESTROOMS

Create a positive first—and lasting—impression of your facilities

These facilities are a breeding ground for bacteria, germs, and odors. AeraMax Pro's patented EnviroSmart™ Technology automatically detects when to purify the air, reducing contaminants and odors quickly.

HOTEL ROOMS

Guests appreciate clean, healthy air

Hotel developers and managers realize air quality can be an important consideration for guests, especially in deciding whether to return to the property for future trips or meetings. A growing number of travelers, especially those from among the 40 million Americans who suffer from allergies, will no longer stay at hotels unless the guest rooms have allergy-friendly options and appointments. Hotel rooms equipped for allergy-sensitive guests are sold at a premium, according to industry analysts.

AeraMax Pro AM2 units are the perfect choice for an air purifier loaner program. At only 11lbs, they are easily transportable and can bring additional True HEPA filtration to any room.

MEETING AND CONFERENCE SPACES

Meeting spaces are often multipurpose rooms, housing corporate meetings, trainings, weddings and more. As people gather in groups, virus transmission is always a top concern but by increasing air changes per hour, it helps eliminate airborne viruses. It also helps to remove unwanted odors left from lunches or dinners in the space..

RESTAURANTS, CLUBS AND BARS

High-traffic environments—where guests relax and unwind—can be at risk of viral and germ transmission. Fellowes air purifiers with PureView™ Technology makes the invisible visible with real-time status updates as the air is cleaned. Improved indoor air quality provides improved brand perception and maximum peace of mind, essential in these environments.

SPAS/SALONS

Make your guests feel truly comfortable and relaxed with an environment that not only pampers, but provides purified air. Adding Fellowes air purifiers will also help remove unwanted odors or chemicals from the air released by salon products, so you can keep your clients looking good - and feeling good.

EXERCISE ROOMS

Maximize cleaning measures for a safe and pleasant workout

These sweat-soaked facilities are a perfect breeding ground for airborne contaminants that may be exasperated by heavy breathing in close quarters. Additionally, bacteria, germs and odors that linger in the air are unhealthy for customers to inhale. Smart air purifiers like AeraMax Pro automatically senses when to purify the air, removing contaminants and odors quickly and efficiently.

Fellowes Air Purifiers Are Smart

For over a decade Fellowes AeraMax Pro air purifiers have been a leading choice for localized air purification. Fellowes is the only solution that combines H13 True HEPA filtration (AM3 and AM4) with EnviroSmart and PureView Technologies.

Our proprietary and patented EnviroSmart technology enables AeraMax Pro commercial-grade air purifiers to continuously monitor your environment and automatically adjust to clean the air, conserve energy and reduce operating costs.

PureView's patented sensor technology and display makes the invisible visible with real time status updates as the air is cleaned. It provides maximum peace of mind that the air you and others breathe is clean.

Integrated

A Seamless Addition

AeraMax Pro was designed to seamlessly integrate into your space, whether on the floor, wall-mounted or recessed into the wall. All models are unobtrusive and aesthetically pleasing, so you can provide worry-free air purification wherever it's needed most.

Reliable

Commercial Grade Durability

AeraMax Pro commercial-grade air purifiers are built to last, with high-quality components ensuring your unit is reliable, durable, and tamper-proof.

THE AERAMAX PRO LINE UP

AeraMax Pro room size recommendations are based on delivering the recommended 3-5 Air Changes per Hour (ACH).
