

## Removes over 99.99% of Covid-19<sup>†</sup> and its variants

In a recent test, Fellowes AeraMax Pro AM2, AM3 & AM4 air purifiers demonstrated to eliminate COVID-19<sup>†</sup>, using a combination of smart and integrated technologies

– only from Fellowes.

<sup>†</sup>Fellowes AeraMax Pro air purifiers demonstrated, through independent laboratory testing, to be effective in eliminating aerosolized concentration of SARS-CoV-2 by 99.9999% through a single air pass test of the purifier. In addition, AeraMax Pro air purifiers reached 99.99% airborne reduction of a surrogate Human Coronavirus 229E in a 20m3 test chamber within 1 hour of operation in a separate test.

*The AeraMax Pro AM2, AM3 and AM4 air purifiers were evaluated in extreme laboratory operating conditions, certainly much more critical and difficult than the real environmental situation. This situation was purposely designed since it is necessary to test the effectiveness of similar sanitizing devices in critical conditions to guarantee their effective performance. Despite the extreme conditions used, the Fellowes air purification technology was able to neutralize the airborne viral load.*

*Additionally, SARS-CoV-2 mutations do not affect dynamics of its spreading by aerosol particles. As the particulate would remain the same size regardless of the variant, this testing demonstrates that all AeraMax Pro AM2, AM3 & AM4 effectively removes over 99.99% of aerosolized COVID-19 particles.*

–Dr. Alberto Izzotti,

Full Professor of Hygiene, Preventive Medicine and Public Health Department of Experimental Medicine at University of Genoa, School of Medicine, where the Fellowes test was conducted.

### Why Fellowes Air Purifiers? It Starts with Great Filtration

Our AeraMax Pro AM3 and AM4 units with H13 True HEPA filters capture at least 99.95% of particles as small as 0.1 microns, including allergens, such as pollen, dust, pet dander, and smoke.

- 1 Pre-Filter**  
Captures large particles
- 2 Active Carbon Filter**  
Absorbs odors and Volatile Organic Compounds (VOCs)
- 3 H13 True HEPA Filter**  
Captures up to 99.9% of particles as small as 0.1 microns
- 4 PlasmaTrue™ Bipolar Ionizer**  
Improves capture efficiency

# Fellowes Air Purifiers Are Smart

For over a decade Fellowes AeraMax Pro air purifiers have been a leading choice for localized air purification. Fellowes is the only solution that combines H13 True HEPA filtration (AM3 and AM4) with EnviroSmart and PureView Technologies.

Our proprietary and patented EnviroSmart technology enables AeraMax Pro commercial-grade air purifiers to continuously monitor your environment and automatically adjust to clean the air, conserve energy and reduce operating costs.

PureView's patented sensor technology and display makes the invisible visible with real time status updates as the air is cleaned. It provides maximum peace of mind that the air you and others breathe is clean.

## Integrated

A Seamless Addition

AeraMax Pro was designed to seamlessly integrate into your space, whether on the floor, wall-mounted or recessed into the wall. All models are unobtrusive and aesthetically pleasing, so you can provide worry-free air purification wherever it's needed most.

## Reliable

Commercial Grade Durability

AeraMax Pro commercial-grade air purifiers are built to last, with high-quality components ensuring your unit is reliable, durable, and tamper-proof.

## THE AERAMAX PRO LINE UP

AeraMax Pro room size recommendations are based on delivering the recommended 3-5 Air Changes per Hour (ACH).
