

FELLOWES FALL, 2022 CLEAN AIR SURVEY of K-12 EDUCATORS

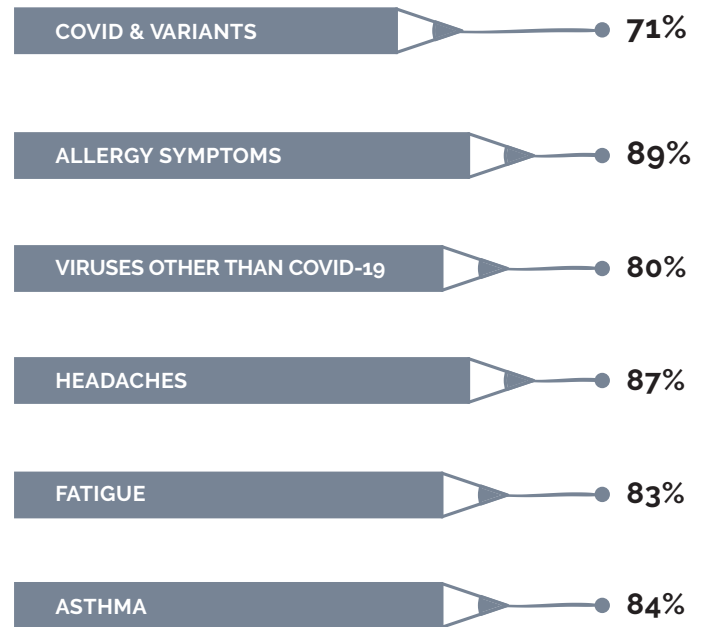

98% of Educators surveyed believe "Clean indoor air should be a right for all students and school employees."

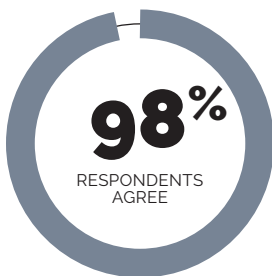

Only **23%** rate the indoor air quality in their classroom as Good or Excellent.

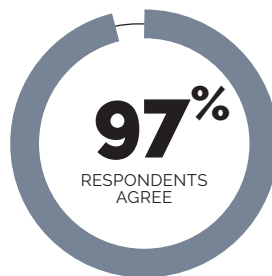

Majority of respondents are at least somewhat concerned with the consequences of poor indoor air quality in their classrooms.

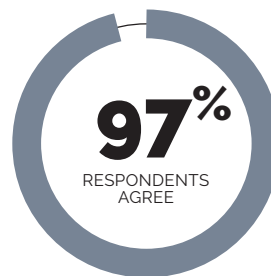

EDUCATOR PERCEPTIONS CLASSROOM'S AIR QUALITY

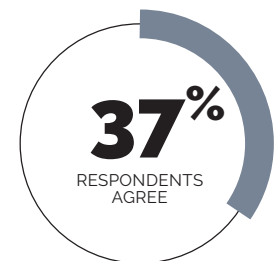

My school/district has a responsibility to provide clean air in my classroom.

Clean indoor air helps me perform my best at work.

Clean indoor air has a direct impact on how my students perform in the classroom.

My school made or is planning to make improvements to indoor air quality in my classroom.
