

Keep Customer Financials Private.

With the cost implications of a data breach increasing exponentially for financial firms, the success of financial service companies today depends heavily on their ability to protect customer information privacy.

1,074,043* records were lost/stolen within Financial Services in 2015

41% of financial services organizations polled had experienced a data breach or failed a compliance audit in the previous year*

Regulations like Gramm-Leach-Bliley Act and standards such as ISO 27001, ISO 27002 impact the financial industry with strict penalties

The reputational impact of a privacy breach extends beyond the financial effects

Fellowes® **PrivaScreen™** Blackout Privacy Filters keep on-screen information private, protecting your customers personal information. Reduce the risk of a privacy breach and keep your company compliant with critical privacy regulations.
