

FELLOWES® Call Script for Laminators

Do you create documents that are constantly being used?

Fellowes offers laminating solutions to meet a wide variety of needs.

Step 1:

- How often will the machine be used?
 - Occasionally- Home or Office use a few times a month
 - Moderately- Office or Classroom use a few times a week
 - Heavy Use- Daily Office or School use

Step 2:

- Determine the maximum size document being laminated to select correct entry width
 - 9.5” entry for documents up to 9” wide
 - 12.5” entry for documents up to 12” wide

Step 3:

- How often will the document be handled?
 - Occasionally- 3 mil thick pouch is appropriate
 - Moderately- 5 mil thick pouch will add more durability to the document
 - Heavy Use- 7-10 mil pouches will provide the most rigidity

Model	<i>Spectra 95</i>		<i>Saturn 3i 95/125</i>		<i>Jupiter 2 125</i>
Item Number	5738201		5735801	5736601	5734101
Usage	Occasionally- Few Times a Month		Moderate- Few Times a Week		Heavy Use- Daily
Document Size	9.5" Width- Letter/Legal Size Only		9.5" Width- Letter/Legal Size Only	12.5" Width- Menu (11" x 17"), A3	12.5" Width- Menu (11" x 17"), A3
Durability	Moderate- Capable of Laminating Up to 5 mil Thick Pouches				Heavy Use- 10 mil Capable
Features	-		InstaHeat		
	Auto Shutoff				
	Pouch Release Lever				Pouch Reverse
	-		-	-	AutoSense

InstaHeat- allows users to begin laminating quickly, the machine will heat up in 60 seconds. Most machines take 5 minutes until they are ready.

AutoSense- users can have the flexibility of laminating different thicknesses without having to manually change settings. AutoSense machines do all of the thinking/adjusting for the user, improving its ease of use and flexibility while still providing perfect lamination.
